Marcy Winograd will create jobs!

- Reduce the military budget 1/3 to invest in jobs rebuilding America.
- Organize a Social Security and Medicare Caucus to fight back.
- Save public education from budget cuts and privatization.
- Demand corporate tax dodgers pay their fair share.
- Shut down nuclear power plants and shift funding to solar and wind energy.

A Fresh Voice versus ...

Marcy mobilized 41% of the primary vote against Jane Horman. Now Bowen and Hahn want to quit their jobs, too -- and we just elected them. Bowen and Hahn praise Horman for her "incredible leadership" on national security. Horman took us to war and condoned illegal wiretaps. Incredible? Incredibly wrong! Send the peace champion to Congress. Vote for Marcy!

Vote Winograd on May 17 or earlier if by absentee ballot

"During this budget crisis, we can't afford millions for special elections. I promise to serve my full term."
- Marcy Winograd
